Java, C, Docker, Maven, Jenkins, TDD (JUnit, Karma, Protractor, Jasmine), Spring

Work Experience

June 2015 - Present
Bank of New York Mellon

User Experience Designer
Redesigned the employee and client experience while following the Design Thinking process. Conducted client interviews, analyzed insights, and designed high-fidelity prototypes using industry-standard prototyping tools. Developed production ready prototypes using AngularJS, Bootstrap, and HTML5. Collaborated with business partners to ensure timely delivery of high-profile and client facing projects.

Planned and orchestrated global events promoting company presence, including a weekly speaker series, World Usability Day presence, and Grace Hopper Celebration of Women in Computing presence.

June 2015 – August 2015
Bank of New York Mellon

Senior Developer, Application Development Program
Highly technical position in which participants undergo a 10-week training program to learn Java, JavaScript, SQL, Linux, RESTful APIs, and Spring Framework as well as garner a deep understanding of the software development and product life cycles.

June 2014 – August 2014
L Brands

Front End Developer Intern, Victoria's Secret PINK
Owned and launched several projects using JQuery, SASS, Node, Grunt, Bootstrap, and HTML5 based on UX prototypes.

Certifications
